CMSI 4072: Written Status Report

Week 13

Yuchung Wu (Troy) - Archived

Accomplishment since last report

- Accomplishment 1: The application now contains comment section that the all users can type comment on, and it's integrated with backend system

- Accomplishment 2: Refining UI and backend integration of producer/artist profile section

- Accomplishment 3: Code cleanup to improve the code readability - added comment for clarity

Scheduled tasks to be done by next report

- Task 1: Integrating payment system (April 23rd)

- Task 2: continue to refine UI of homepage and beat section (April 23rd)

- Task 3: Build DM page between a producer and artist to allow them to text each other and complete transactions of beats and collaborations (April 23rd)

Noteworthy risks, concerns, or problems:

1. Payment system continues to take up a lot of time to research and build on - especially because I have to build a server on backend client side, and having to encrypt data for cybersecurity
