CMSI 4072: Written Status Report

Week 11

Yuchung Wu (Troy) - Archived

Accomplishment since last report

- Accomplishment 1: artist can upload file url (mp3/wav) and cover art (jpeg/png/gif) to the artist open section of the firestore database

- Accomplishment 2: artist can input information regarding the open, including open name, open price, open description

- Accomplishment 3: the application can fetch artist open information from the firestore database and display on the app

- Accomplishment 4: Improved the aesthetics and smoothness of the UI of profile section

- Accomplishment 5: The application can fetch all information regarding beats and opens categorized by users and sorted by chronological order

Scheduled tasks to be done by next report

- Task 1: Continue building comment section, currently experiencing error building (April 10th)

- Task 2: Continue implementing payment system (April 14th)

- Task 3: Refine UI and backend in terms of smoothness and data security (April 14th)

Noteworthy risks, concerns, or problems:

1. Easter break is coming up so I might have to adjust my schedule accordingly (I expect payment system to take a couple weeks to fully implement)
